DAYLIGHT® CHAIR

KI (UK) Ltd
23rd November 2009

DAYLIGHT CHAIR PROGRAMME FOR:

→ Stacking Mesh Chair

FEATURES:

- **High Storage Ability** - a maximum of 45 chairs can be stacked on one carrier and pass through a doorway.
- **Portable Weight** - due to the mesh seat and back the chair weighs a mere **3.8kg**.
- **Trim Injection** - edges of seat and backrest are bordered with polypropylene. This protects the mesh from stacking abrasion.
- **Ganging Device** - the plastic glides have integral ganging devices as standard.
- **Mesh Suspension** - supports the hipbone tubercle and adapts to changes of posture.
- **Torsion Bar** - the natural bending fits the action of the body, making it possible to keep stable and comfortable for a long time without fatigue.

GENERAL DIMENSIONS:

Seat:

Seat Height	→	470 mm
Seat Width	→	445 mm
Seat Depth	→	480 mm
Top Height	→	820 mm
